

No One Likes Child Labor

Draw a circle around the child that has to work instead of going to school.

What's the difference between doing child labor and doing chores at home?
() One stops you from going to school, and the other lets you help at home after going to school, and it makes your family happier.

() One is something you do once in a while, and the other is something your parents never make you do.

Draw a line under the picture that shows the child happily helping at home.

THE CHALLENGE: Share with your family or friends what you have learned about Child Labor.
